RE: Notice to amend broadband coverage designation

To Whom It May Concern,

It has been brought to our attention that there are a number of census blocks within our service footprint which, because we had not constructed them in time for inclusion in our December 31, 2015 Form 477 filing, have been made eligible for inclusion in the Connect America Fund program. Specifically, the blocks are those numbered 361090018002051, 361090018002049, and 361090018003055, all located in the Town of Newfield, NY.

The services available in these newly deployed areas, commencing on March 1, 2016, meet and exceed those standards set by the Connect America Fund program for inclusion as served, i.e.

- Service of 10/1 Mbps speeds or greater
- A minimum usage allowance of 150 GBs
- Sold at a rate meeting the Commission's reasonable comparability benchmark
- With latency not exceeding 100 ms.

We request that the aforementioned census blocks be amended to reflect their served status and that they be removed as eligible entrants in the Connect America Fund program. We have provided samples of our marketing materials which include the relevant service tier(s). If there is anything more that we can provide, please let us know.

Thank you for your time,

Respectfully,
